

What makes our Aftermarket spares unique?

We adopt an engineering-led, hands-on manufacturing process that aims to match or exceed the quality of genuine and OEM spares, providing engineers a viable alternative with faster lead times and competitive pricing. Once your equipment is out of warranty, our aftermarket spares can offer:

-  Same life-expectancy
-  Equivalent Reliability
-  Comparable Quality
-  Identical Efficiency
-  Exceptional Value
-  Shorter lead times
-  Better service

Engineering-led manufacturing and supply

We've spent 35 years as an essential supplier to the marine industry, as is evident in our design, rigorous testing, and manufacturing of quality aftermarket spares for compressors, pumps and sewage treatment systems.

Decades of global logistics expertise and a proven track record for delivering expert customer service mean you are always in safe hands.

COMPRESSORS

Starting Air, Topping Up, Main Air, Working Air, Deck Air, Refrigeration

SEWAGE TREATMENT

Pumps, Air Blowers, Level Switches, STP Systems, Vacuum Toilet Systems, Waste Water

PUMPS

Fuel, Cooling Water, Ballast, Fire, Discharge
